# STRENGTH THAT LASTS A LIFETIME

### FF STEEL TODAY

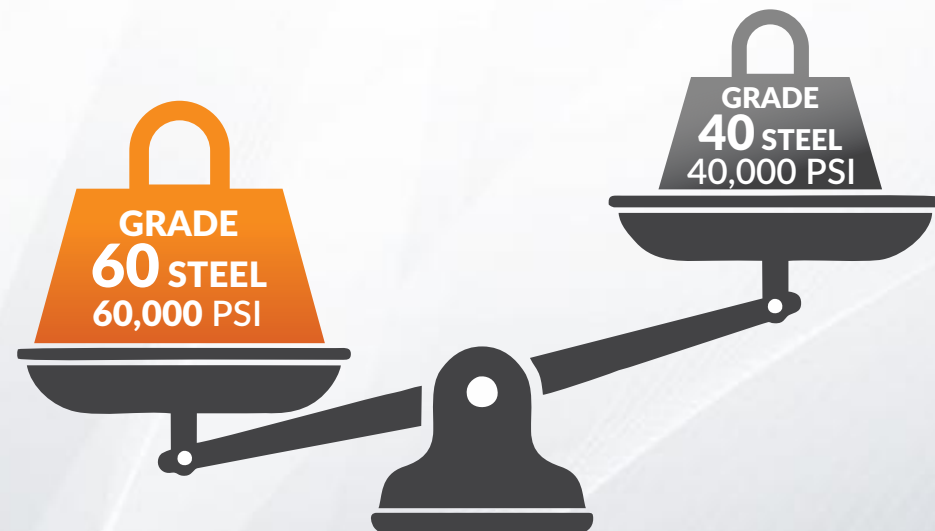

- The fastest growing steel company in Pakistan
- Production of standard abiding Grade 60 and Grade 80 bars
- Largest sales network across Pakistan than any other steel company
- 3 decades long history of pioneering in implementing innovative processes
- Having two 132KV grid stations in two separate units makes FF Steel get its name included among the small group of elite steel companies that have their own grid stations
- Pakistan's only steel company to have production units in different provinces attracting diverse talent nationwide

## MOST TRUSTED STEEL BAR FOR HOME OWNERS

### GRADE-60 VS GRADE-40

**50%**  
More Strength

**12%**  
Less Consumption

### WHY FF GRADE-60

### OUR GUARANTEE

### OUR VALUES

### UNDERSTAND YOUR STEEL

Good quality steel means less bars required for construction. For actual quantity, expert opinion is strongly recommended. The company has provided approximate quantity values for your ease
